POLREP NUMBER: 4 and final (BB-1)

II. BACKGROUND

Site Number:	KD
Response Authority:	CERCLA
CERCLIS Number:	NJD011770013
NPL Status:	Proposed
State Notification:	NJDEP notified
Action Memorandum Status:	September 30, 2005
Start Date:	May 24, 2006
Completion Date:	September 25, 2006

III. SITE INFORMATION

A. Site Category

Former battery disposal area, active scrap recycling facility.

B. Preliminary Assessment Results

See Polrep 1 (initial) BB-1.

C. Situation

A total of approximately 3,350 linear feet of fence was installed at the Site. A punch-list of deficiencies regarding the Site fence was addressed by the PRP's subcontractor. Weatherproof "No Trespassing" and "Danger" signs have been attached to the fence. During a recent inspection, two weeks after completion of the fence, no breaches in the fence were observed. The PRP has placed approximately 1600 tons of crushed stone over the operational area of the scrap yard to eliminate the potential of direct contact with contaminated soil. Additional crushed stone is staged on-site for placement to replenish areas which become expended due incidental movement out of the area.

The PRP has completed all the field work required by the AOC.

IV RESPONSE INFORMATION

A. Status of Actions

The PRP's contractor provided the final report to the EPA as required by the AOC. The OSC reviewed the final report and provided comments to the PRP's contractor. A revised final report was provided to EPA which was subsequently reviewed and determined to be acceptable. A letter dated September 25, 2006, was sent to the PRP indicating that Pursuant to Paragraph 83 of the Order, EPA has determined that the removal work conducted by the PRP was performed in accordance with the Order and the letter constitutes a Notice of Completion of work under the Order.

B. Next Steps

All work required by the AOC has been completed.

C. Key Issues

The Site has been proposed for placement on the National Priorities List.

V COST INFORMATION

Site work is being funded by the PRP.

VI. Disposition of Wastes

The following table lists the waste quantities shipped for treatment/disposal as of 8/1/06.

Waste stream	Loads	Quantity	Disposal/ Treatment	Disposal Facility
Nonhazardous Soil	1	10.7 tons	Landfill	Clean Earth of Philadelphia, Inc. Philadelphia, PA
TOTALS	1	10.7 tons
